BECOMING FAMILY

We partner with parents to become an extension of family. We share the same goals for your children – **protecting, guiding, and nurturing** their health, development and well-being.

Our warm environment allows children to thrive, make friendships, prepare for kindergarten and build strong foundations for success.

PLAY IS CHILDREN'S WORK

Through different kinds of play, children learn how to express ideas and feelings, solve problems, concentrate, follow directions, recognize differences, relate to others, and use their bodies to experience the world. OUR SPECIALITY

We pride ourselves in offering a unique intergenerational program with seniors who reside at AdviniaCare Northbridge Skilled Nursing, Assisted Living, and attend our Adult Day Care.

This program has become a distinguishing feature of ours that enhances the life for both the children and seniors.

Under the supervision of our staff, the intergenerational programming is a combination of spontaneous and planned activities designed to capitalize on studies that show children and elders benefit from each other's presence. This program fosters growth within children by teaching additional social responsibility and the skills needed to interact with adults.
